'Emotions of the Sun', a photography exhibition by Veuve Clicquot and Magnum Photos, debuts in Milan, accompanied by a sun-themed tasting menu

The resulting exhibition, 'Emotions of the Sun', is now embarking on a world tour, rising first in Milan at Garden Senato, in a space created specially by French designer Constance Guisset. The Milan show is complemented by a sun-themed tasting menu, with award-winning chefs and rising gastronomic talents presenting dishes that celebrate the emotional appeal of summer aromas, flavours and textures.
